## ANNUAL REPORT

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

# Chairman's Statement

Dear Shareholders,

On behalf of the board (the “**Board**”) of Directors of Oriental Payment Group Holdings Limited (the “**Company**”), I am pleased to present to you the annual report of the Company and its subsidiaries (collectively the “**Group**”) for the financial year ended 31 March 2021 (the “**Year**”).

## REVIEW

The Group is an established merchant acquirer in providing a suite of comprehensive payment processing services to merchants of all sizes frequently visited by Chinese tourists in Thailand. The Group has also engaged in payment processing services to merchants in Singapore through an associate which was acquired in February 2020.

During the Year, the Group recorded a decrease in revenue of approximately 84.6% to HK\$12.4 million (2020: approximately HK\$80.5 million). The revenue was derived from its merchant discount rate income (“**MDR income**”), foreign exchange rate discount income and marketing and distribution service income. The Group recorded a loss attributable to equity holders of the Company of approximately HK\$30.7 million (2020: approximately HK\$5.6 million). The increase in net loss was mainly due to the decrease in revenue and gross profit as a result of the substantial drop of the Chinese tourists' spending in Thailand amid the outbreak of the coronavirus disease 2019 (“**COVID-19**”) pandemic.

## OUTLOOK

The outbreak of the COVID-19 pandemic has a material adverse effect to the business operation of the Group and overall economy in the global business environment. The Group will stay alert to the development and situation of the COVID-19 pandemic, continue to assess its impacts on the financial position and operating results of the Group and take necessary actions to maintain the stability of the businesses.

## APPRECIATION

Finally, on behalf of the Board, I would like to express our sincere gratitude to our shareholders, business partners and customers for their continuous support and trust placed in us. I would also like to thank our staff for their tremendous efforts and contributions during the Year. With our competent management and professional teams, I believe the Group will succeed in achieving an exceptional result.

# Management Discussion and Analysis

## BUSINESS REVIEW

Oriental Payment Group Holdings Limited (the “**Company**”) and its subsidiaries (collectively the “**Group**”) is an established merchant acquirer in providing a suite of comprehensive payment processing services to merchants of all sizes frequently visited by Chinese tourists in Thailand. The Group has also engaged in payment processing services to merchants in Singapore through an associate which was acquired in February 2020.

The Group has three main income streams derived from the merchant acquiring business, including (i) the merchant discount rate income (the “**MDR income**”); (ii) the foreign exchange rate discount income; and (iii) the marketing and distribution service income. For each successful transaction processed by the Group via its point-of-sale (“**POS**”) terminals, the MDR income is generated from its merchants based on certain percentage of the transaction value. The Group’s foreign exchange rate discount income is derived from its daily settlement with UnionPay International (“**UPI**”) whereby a favourable spot exchange rate of Baht to United States dollars (“**US\$**”) is offered by UPI for translating the nominated transaction value in Baht. The marketing and distribution service income represents the income derived from developing marketing channels for expanding the use of payment service system through its merchant network.

During the financial year ended 31 March 2021 (the “**Year**”), the Group continuously faced the risks of the uncertainties in the impact of Sino-US trade war and the outbreak of the coronavirus disease 2019 (“**COVID-19**”) pandemic, which would affect Chinese tourists’ spending in Thailand. In particular, the outbreak of the COVID-19 pandemic, which led to the suspension of a majority of the international flights to Thailand, resulted in a material adverse effect to the income of the Group. It is uncertain as to when the international flights to Thailand would be completely resumed, and hence the Company has been proactive in exploring other business opportunities, especially payment related business, that could sustain the Company’s business development and growth for generating a better return to the shareholders of the Company.

While exploring investment opportunities in online and offline payment related business in Asia Pacific, the Group completed a placing of convertible bonds in June 2020 to raise funds. Taking into account the speedy recovery of the economy of the People’s Republic of China (the “**PRC**”, or “**China**”) from the COVID-19 pandemic and the favourable policies towards the Guangdong – Hong Kong – Macau Greater Bay Area (the “**Greater Bay Area**”), the Group has also explored investment opportunities in new economies such as the fintech industry and IT industry in the PRC, and in particular, the Greater Bay Area.

During the Year, the Group has implemented more stringent cost saving measures in order to reduce the expenditures to a more reasonable and justifiable level. The Group will stay alert to the development and situation of the COVID-19 pandemic, continue to assess its impacts on the financial position and operating results of the Group and take necessary actions to maintain the stability and sustainability of the businesses. The Group will also continue to closely monitor the market conditions and adjust the Group’s business strategies to cope with the fluctuations in the transaction value derived from its merchant network.

## FINANCIAL REVIEW

### Revenue

During the Year, the Group recorded a total revenue of approximately HK\$12.4 million (2020: approximately HK\$80.5 million) derived from the merchant acquiring business, which included i) the MDR income of approximately HK\$9.9 million (2020: approximately HK\$61.5 million); ii) the foreign exchange rate discount income of approximately HK\$2.4 million (2020: approximately HK\$17.5 million); and iii) the marketing and distribution service income of approximately HK\$35,000 (2020: approximately HK\$1.4 million). There were decreases in the MDR income and foreign exchange rate discount income by approximately HK\$51.6 million and HK\$15.1 million respectively when comparing with those in the previous financial year. The decreases in these two income streams were primarily due to the significant decrease in the transaction volume via UPI processed by the Group for the Year as compared with those in the previous financial year as a result of a substantial drop of the Chinese tourists’ spending in Thailand amid the outbreak of the COVID-19 pandemic. The marketing and distribution service income remained insignificant to the Group’s revenue for the Year.

### Cost of services rendered

Cost of services rendered of the Group includes the IT network service fee and franchise license fee for the merchant acquiring business. The total cost of services rendered for the Year amounted to approximately HK\$7.9 million (2020: approximately HK\$55.1 million). The decrease in cost of services rendered of approximately 85.7% was in line with the decrease in revenue.

### Gross profit and gross profit margin

The gross profit for the Year amounted to approximately HK\$4.5 million, representing a decrease of approximately HK\$20.9 million or approximately 82.4% as compared with that of approximately HK\$25.4 million for the previous financial year, which was in line with the decrease in revenue. The gross profit margin increased from 31.6% for the previous financial year to 36.2% for the Year which was primarily driven by the increase in portion of higher MDR rate transactions.

### General administrative expenses

The general administrative expenses of the Group for the Year amounted to approximately HK\$17.0 million (2020: approximately HK\$18.1 million). The decrease in general administrative expenses by approximately 6.3% was mainly due to the more stringent cost saving measures implemented by the Group but was offset by the increment in the salaries and benefits for the Directors and staff of the Group.

### Selling and distribution costs

The Group recorded selling and distribution costs of approximately HK\$12.0 million for the Year (2020: approximately HK\$11.5 million). The increase in selling and distribution costs by approximately 4.2% was mainly due to the increase in amortisation cost but was offset by the decrease in the transaction volume.

### Impairment loss on non-current assets

In view of the deteriorating economy and the outbreak of COVID-19 pandemic during the Year, the Group considered that there is impairment indicator on non-current assets under the merchant acquiring services. The Group assessed that the acquiring and clearing system developed in the previous financial year for the payment processing services via major payment networks in Thailand (the “System”), which was not used by the Group due to the change in the business operation and market development strategy of the Group, may not be able to generate future economic benefits, in particular, after the outbreak of COVID-19 pandemic. Accordingly, the recoverable amount of the System was minimal. Impairment loss on the System of HK\$5,600,000 was recognised for the Year (2020: Nil).

At 31 March 2021, the Group further assessed the recoverable amounts of the remaining intangible assets, property, plant and equipment and right-of-use assets based on the value-in-use calculation using pre-tax cash flow projections covering a 3-year period and considered that no further impairment loss should be recognised at 31 March 2021.

### Share of results of an associate

The share of losses of an associate of the Group for the Year amounted to approximately HK\$1.2 million (2020: HK\$58,000). The results of an associate have been shared by the Group since the acquisition taken place in February 2020.

# Management Discussion and Analysis

## Finance costs

The finance costs amounted to approximately HK\$2.9 million for the Year (2020: approximately HK\$0.6 million). The amount represented (i) the effective interest expenses on the convertible bonds, (ii) the finance costs on lease liabilities, and (iii) the finance costs on financial liabilities at amortised cost. The increase was mainly arisen from the effective interest expenses of the convertible bonds issued in June 2020. Details of the convertible bonds are set out in Note 25 to the consolidated financial statements.

## Loss for the Year

The Group recorded a net loss attributable to owners of the Company of approximately HK\$30.7 million for the Year (2020: approximately HK\$5.6 million). The recorded net loss was mainly attributable to the aforementioned decreases in revenue and gross profit as a result of the significant drop in the UnionPay transaction volume.

## LIQUIDITY AND FINANCIAL RESOURCES

As at 31 March 2021, the Group had current assets of approximately HK\$66.6 million (31 March 2020: approximately HK\$64.3 million) including bank balances and cash of approximately HK\$29.2 million (31 March 2020: approximately HK\$36.9 million). Total assets and total liabilities were approximately HK\$82.7 million (31 March 2020: approximately HK\$94.1 million) and HK\$35.2 million (31 March 2020: approximately HK\$18.3 million) respectively as at 31 March 2021.

The gearing ratio, which was calculated by dividing total other long-term liabilities and convertible bonds by total equity, was 38.3% as at 31 March 2021 (31 March 2020: 8.0%).

The Directors are of the view that the Group's financial resources are sufficient to support its business and operations.

The Group's operations are financed principally by revenue generated from its business operation and available bank balances. The board (the "**Board**") of Directors will continue to follow a prudent treasury policy in managing its bank balances and cash and maintain a strong and healthy liquidity to ensure that the Group is well positioned to achieve its business objectives and strategies.

## CONTINGENT LIABILITIES

As at 31 March 2021, the Group did not have any material contingent liabilities (2020: Nil).

## CAPITAL COMMITMENTS

Save as disclosed in this report, as at 31 March 2021, the Group did not have any capital commitments contracted for but not provided in the consolidated financial statements (2020: Nil).

## SIGNIFICANT INVESTMENT, MATERIAL ACQUISITIONS AND DISPOSALS

Save as disclosed in this report, during the Year, the Group did not have any significant investment, material acquisition nor disposal of subsidiaries and affiliated companies (2020: Nil).

### FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as disclosed in this report, the Group did not have any plans for material investment or acquisition of capital assets as at the date of this report. The Company will make further announcement in accordance with the GEM Listing Rules, where applicable, if any investments and acquisition opportunities materialise.

### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

Save as disclosed in this report, during the Year, the Group did not have any material acquisitions and disposals of subsidiaries and affiliated companies.

### PRINCIPAL RISKS AND UNCERTAINTIES

The Group believes that there are certain risks involved in its operations, many of which are beyond its control. Some of the key risks include:

- i. the operation and the profitability may be materially and adversely affected if China UnionPay (“**CUP**”), who is the largest supplier and also one of the Group’s major customers, ceases to partner with us;
- ii. the reliance on a merchant who is the single largest merchant in our five largest customers;
- iii. failure of third-party software and equipment used in the operation of the Group may cause interruptions to the business of the Group;
- iv. the Group’s business is exposed to the foreign exchange risks; and
- v. there are regulatory risks in Thailand hindering the Group’s business and structure.

For a more comprehensive list of risk factors and explanations, please refer to the prospectus of the Company dated 27 September 2018 (the “**Prospectus**”).

Further descriptions of the Group’s financial risks (including credit risk, foreign exchange risk, interest rate risk, and liquidity risk) management objectives and policies are set out in Note 30 to the consolidated financial statements.

The Group’s risk management activities are performed by the Board on an ongoing basis. Further descriptions on the Group’s risk management and internal control measures are set out in the section headed “Risk Management and Internal Control” in page 22 in this report.

### FOREIGN EXCHANGE EXPOSURE

The Group mainly operates in Thailand with transactions denominated in Baht. The Group exposes to foreign exchange risks as the Group’s trade receivables are denominated in US\$. The Directors and senior management have monitored the related foreign exchange risk exposure closely. Pursuant to a written foreign currency hedging policy approved by the Board, the Group will enter into foreign currency forward contracts should the needs arise. As at 31 March 2021, the Group had no outstanding foreign currency forward contracts for the exchange of US\$ with Baht (31 March 2020: US\$0.6 million (equivalent to approximately HK\$4.7 million)). The Directors and senior management will continue to monitor the foreign exchange exposure and will consider other applicable derivatives when necessary. The Group did not have other derivatives for hedging against the foreign exchange rate risk as at 31 March 2021.

## Management Discussion and Analysis

### COMPARISON OF BUSINESS OBJECTIVE WITH ACTUAL BUSINESS PROGRESS

Although tackled the unexpected difficulties brought about by the world-wide outbreak of the COVID-19 pandemic since the beginning of 2020 which caused most economic activities in China, Thailand and many other countries suspended, the Group tried hard to achieve its business objectives as stated in the Prospectus as much as possible. The following is a comparison of the Group's business plans as set out in the Prospectus with actual business progress for the Year.

Business Objective	Planned progress as set out in the Prospectus for the Year	Actual business development during the Year
Continuously improving the availability and enhancing the functions of our stock of smart POS terminals	<ul style="list-style-type: none"> <li>(i) To purchase around 2,400 new smart POS terminals to distribute to new merchants in Cambodia and to build up backup stocks for merchants in Thailand;</li> <li>(ii) To enhance the add-on functions of the existing smart POS terminals and set up interface for additional smart POS terminals.</li> </ul>	The operation in Cambodia has not yet commenced its business. Due to the outbreak of the COVID-19 pandemic, the Group has slowed down the planned progress and will continue the evaluation on the necessity of purchasing new smart POS terminals.
Developing our acquiring host system	<ul style="list-style-type: none"> <li>(i) To pay the annual enhancement fee of the QR Code payment system;</li> <li>(ii) To enhance the QR Code payment system;</li> <li>(iii) To maintain the UPOP's acquiring host system;</li> <li>(iv) To recruit new staff;</li> </ul>	(i) to (iii) completed while (iv) suspended due to COVID-19 pandemic.
Strengthening and broadening our marketing initiatives	To publish the coupon booklet.	Due to the outbreak of the COVID-19 pandemic, the Group has not published the coupon booklet in Thailand but has hired talents in China to perform marketing activities for the Group.
Recruiting new talents	To retain the legal and compliance services provided by a Thailand law firm; and to hire the business head for Ko Samui and Pattaya.	Due to the outbreak of the COVID-19 pandemic, the Group has retained the legal and compliance services but has hired the talents in Hong Kong instead of Thailand.
Extending our payment processing services to cover other payment network associations	To cover Visa Card and Mastercard to enhance our payment processing services.	Completed.
Expanding to Cambodia	To expand the merchant network in Phnom Penh and to explore other popular cities in Cambodia.	The business in Cambodia has not yet been commenced. Due to the outbreak of the COVID-19 pandemic, the Group has slowed down the planned progress and will continue to evaluate the progress.
Working capital	To deploy the funds to accommodate our working capital needs.	The Group has deployed the funds as planned.

## USE OF PROCEEDS

The shares of the Company were listed on GEM on 16 October 2018 (the “Listing”). The Directors intended to apply the net proceeds from the Listing in accordance with the proposed applications as set out in the Prospectus. The net proceeds received by the Company from the Listing, after deducting underwriting commission and other listing expenses, amounted to approximately HK\$51.1 million. Up to 31 March 2021, the net proceeds from the Listing had been applied as follows:

	<b>Intended use of net proceeds</b>	<b>Actual use of net proceeds from the Listing up to 31 March 2021</b>	<b>Unutilised net proceeds up to 31 March 2021</b>
	HK\$ million	HK\$ million	HK\$ million
Continuously improving the availability and enhancing functions of the stock of smart POS terminals	12.8	3.0	9.8
Further developing the acquiring host system	8.1	7.6	0.5
Strengthening and broadening the marketing initiatives	1.2	1.2	–
Recruiting new talents	2.2	2.2	–
Extending the payment processing services to cover other payment network associations	15.1	8.0	7.1
Expanding to Cambodia	6.6	5.1	1.5
Working Capital	5.1	5.1	–
	<b>51.1</b>	<b>32.2</b>	<b>18.9</b>

The business strategies as set out in the Prospectus were based on the best estimation of the future market conditions made by the Group at the time of preparing the Prospectus. The use of proceeds was applied in accordance with the actual development of the market.

As at the date of this report, the unutilised proceeds from the Listing amounting to a total of approximately HK\$18.9 million were placed in interest-bearing deposits with authorised financial institutions or licensed banks.

For the unutilised net proceeds from the Listing up to 31 March 2021, the Company intends to use them in the same manner and proportions as described in the Prospectus. However, the actual use of proceeds was less than planned because the outbreak of the COVID-19 pandemic lead the Company to being more prudent in applying the proceeds. The Board estimated that the time for utilising the remaining unutilised net proceeds will be within one year from the date of this report.

## Management Discussion and Analysis

### USE OF NET PROCEEDS FROM THE PLACING OF THE CONVERTIBLE BONDS

Reference is made to the announcements of the Company dated 10 June 2020 and 26 June 2021 respectively in relation to the issuance of the convertible bonds (the “**Convertible Bonds**”) with a coupon interest rate of 7% per annum, in an aggregate principal amount of HK\$11,850,000 to not less than six independent places.

The net proceeds from the placing of the Convertible Bonds at the time of its completion under general mandate (the “**Placing**”) on 26 June 2020 (the “**Completion Date**”) were approximately HK\$11,543,000. As at 31 March 2021, the net proceeds from the Placing had been applied as follows:

	Intended use of net proceeds HK\$'000	Actual use of net proceeds from the Completion Date and up to 31 March 2021 HK\$'000 (Note)
Exploring investment opportunities in online and offline payment related business in Asia Pacific	9,000	3,000
Working capital	2,543	2,543
	11,543	5,543

Note:

The outbreak of the COVID-19 pandemic has a significant impact on the tourism industry in Asia Pacific, the Company has temporarily applied the surplus cash from the net proceeds for lending to certain independent third parties in order to generate interest income for the benefit of the shareholders of the Company. The Board estimated that the time for utilising the remaining unutilised net proceeds will be within one year from the date of this report. The Company will stay alert to the development and situation of the COVID-19 pandemic and make further announcement(s), if necessary, according to the GEM Listing Rules.

### EMPLOYEE AND REMUNERATION POLICIES

As at 31 March 2021, the Group had a total of 29 employees (31 March 2020: 30 employees) among whom 11 (31 March 2020: 8) were based in Hong Kong, 15 were based in Thailand (31 March 2020: 18) and 3 were based in China (31 March 2020: 4). For the Year, the total staff costs, including key management’s remuneration, amounted to approximately HK\$12.5 million (2020: approximately HK\$9.8 million).

The salaries and benefits of the Group’s employees were kept at a market level and employees were rewarded based on performance, merit and market conditions in accordance with the Group’s remuneration policy.

# Environmental, Social and Governance Report

## OVERVIEW

Oriental Payment Group Holdings Limited (the “**Company**”) is pleased to present this Environmental, Social and Governance Report in accordance with the Environmental, Social and Governance Reporting Guidelines (the “**ESG Guidelines**”) in Appendix 20 of the GEM Listing Rules to disclose the Company’s sustainable development action from 1 April 2020 to 31 March 2021. This report covers the operations of Hong Kong and Thai subsidiaries and is consistent with the scope of the Annual Report.

For many years, the Group is principally engaged in merchant acquiring business in providing a suite of comprehensive payment processing services to merchants of all sizes frequently visited by Chinese tourists in Thailand. The network of merchants across Thailand supports a large number of Chinese tourists to enjoy convenient shopping and payment settlement during their visits in Thailand. However, the COVID-19 pandemic has put global cross border travel and tourism to a lasting standstill for the whole of the reporting period, as a result the business revenue of the Company was severely impacted. Nevertheless, the limited operations and emergency measures carried out had continued to follow the business principles, protecting the interest of the customers and business partners to the extent sensible and viable.

In the third quarter of the reporting period, the Board passed resolution to have Dr. Ng Kit Chong elected as the Chairman of the Board and an executive director of the Company, and Mr. Lin Xiaofeng to remain as an executive director and the Chief Executive Officer of the Company.

## THE ESG CONSIDERATION AND MATERIALITY

Given the scale of the impact of the COVID-19 pandemic to the business of the Company, there was no formal materiality exercise conducted during the reporting period. It is the view of the Board that the Company should focus on stepping out of the crisis with available resources, and as business recovers a formal materiality exercise will be reestablished in due course.

Nevertheless, the Company made decisions for operations during the pandemic crisis management, taking into account the interests of all relevant stakeholder groups. To this end, all stakeholder communication channels were open to ensure that the demands of all parties are heard, and feedback provided in a timely manner. For example, customers were supported with access to service hotline and email; employees were provided with the opportunity to communicate through suggestion boxes and internal seminars; suppliers were encouraged to voice through performance evaluation mechanisms and business contacts; investors were kept up to date with company’s latest developments through public announcements and other updates on the company website.

Issues raised by stakeholders via various channels were escalated to different management levels depending on their urgency and severity. For this reporting period, the Company identified the following as significant areas to report: product and service responsibility, data privacy protection and anti-corruption.

## PRODUCT AND SERVICE RESPONSIBILITY

Providing quality products and services to customers – the merchants – is fundamental to the Company’s business success. As an integral part of overseas merchant payment infrastructure, the Company has always strived to improve the speed and operational efficiency of payment links to improve the overall end-user experience. In terms of product risk management, the Company has established a strict Know Your Customer (“KYC”) process, which demands a full set of disclosure of new customers and corresponding assessment and verification before confirmation of onboarding. In addition, all transactions are monitored in real time to identify abnormal activity and trigger exception handling protocol, thereby preventing attempted transaction fraud.

The Company believes that having adequate communication with its customers and maintaining customer satisfaction is essential. In addition to the day-to-day business dealings, the Company has a customer service hotline and email to ensure that all customers have a timely channel to reach us. All collected information is filed properly and followed up in accordance with the established customer issue handling process until the loop is closed. Despite the impact of the pandemic, these procedures were followed accordingly in the reporting period.

## DATA PRIVACY PROTECTION

Data security and customer privacy protection is the primary focus of the service to customers. The Company has a strict privacy policy and has zero tolerance towards any information leakage or unauthorized use of customer data. Various level of access to the information system are clearly defined based on business needs, and clear guidelines are provided for information collection and entry, data maintenance and use. The Company also acquired certificate of data destruction and recycling for reliable data destruction.

During the reporting period, the Company acted in strict accordance with the relevant laws and regulations, include but not limited to the Personal Data (Privacy) Ordinance, the Provision of Services (Implied Terms) Ordinance, the Trade Descriptions Ordinance, the Cybersecurity Law of the People’s Republic of China, and the Personal Data Protection Act of Thailand.

## ANTI-CORRUPTION

The Company strictly prohibits its staff from soliciting, accepting or offering material benefits associated with their position, such as commissions, gifts and services, under any circumstances. All directors and management team members have to complete annual anti-corruption training. All employees are required to conduct themselves in an ethical manner, not seeking personal gains from their position.

During the reporting period, the Company acted in strict accordance with the relevant laws and regulations, include but not limited to the Prevention of Bribery Ordinance in Hong Kong, the Anti-Unfair Competition Law of the People’s Republic of China, the Act Supplementing the Constitution Relating to the Prevention and Suppression of Corruption in Thailand. And the Company did not receive any corruption-related complaints and litigation cases against the Company or any employee.

The results of the Group for the Year and the financial positions of the Company and the Group as at 31 March 2021 are set out in the audited consolidated financial statements on page 48 to 109 of this annual report.

## DIVIDEND POLICY

The Group currently does not have a pre-determined dividend payout ratio. Dividends may be paid out by cash or other means that the Group considers appropriate. The declaration and payment of any interim dividends would require the recommendation of the Board and will be at their discretion. In addition, any final dividend for a financial year will be subject to the shareholders’ approval. A decision to declare or to pay any dividends in the future, and the amount of any dividends, depends on a number of factors, including the operation performance, financial condition, the payment by the subsidiaries of cash dividends to the Group, and other factors the Board may deem relevant. There is no assurance that the Group will be able to declare or distribute any dividends in the amount set out in any plan of the Board or at all.

The Board does not recommend the payment of a final dividend for the Year (2020: Nil).

### FINANCIAL SUMMARY

## OPINION

We have audited the consolidated financial statements of Oriental Payment Group Holdings Limited (the “**Company**”) and its subsidiaries (together the “**Group**”) set out on pages 48 to 109, which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 March 2021, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the “*Auditor's Responsibilities for the Audit of the Consolidated Financial Statements*” section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Independent Auditor's Report

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the year ended 31 March 2021. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Key Audit Matter

### How our audit addressed the Key Audit Matter

#### *Preference shares structure*

*Refer to significant accounting policy and critical accounting estimate and judgement in Note 2 and the disclosures of the relevant entity in Note 12 to the consolidated financial statements respectively*

At 31 March 2021, Oriental City Group (Thailand) Co., Ltd. ("**OCG Thailand**") had issued 2,500,000 ordinary shares and 2,550,000 preference shares (the "**Preference Shares Structure**").

With reference to the Preference Shares Structure of OCG Thailand, all the OCG Thailand's issued preference share capital is owned by a Thai citizen. However, the Group is able to exercise majority voting power in any shareholders' meeting of OCG Thailand. Therefore the Group is able to control the operations of OCG Thailand by exercising its majority voting power in any shareholders' meeting of OCG Thailand.

We have identified the above matter as a key audit matter because OCG Thailand is material to the Group and the determination of whether the Group has control over OCG Thailand under the Preference Shares Structure involves a significant degree of management judgement.

Our key procedures, among others, included:

- a) enquired of the management whether OCG Thailand received any queries and objections regarding material offences, violations or breaches of laws or regulations in Thailand in respect of the Preference Shares Structure;
- b) assessed the management's monitoring of all applicable laws and regulations in Thailand to ensure the compliance of the Preference Shares Structure with those laws and regulations;
- c) obtained an updated legal opinion from the Company's legal counsel whether the Preference Shares Structure is still in compliance with the relevant laws and regulations in Thailand; and
- d) evaluated the competence, capabilities and objectivity of the Company's legal counsel.

### OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the Company's 2020/2021 annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## Independent Auditor's Report

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee and the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee and the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## Independent Auditor's Report

From the matters communicated with the audit committee and the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 2. PRINCIPAL ACCOUNTING POLICIES

### Statement of compliance

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”), which collective term includes all applicable HKFRSs, Hong Kong Accounting Standards (“**HKASs**”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. The consolidated financial statements also comply with the applicable disclosure requirements under the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”).

All amounts have been rounded to the nearest thousand, unless otherwise indicated.

The consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2019/2020 consolidated financial statements except for the adoption of the new/revised HKFRSs that are relevant to the Group and effective from the current year or the Group elected to early adopt in the current year.

### Adoption of new/revised HKFRSs

The Group has applied, for the first time, the following new/revised HKFRSs that are relevant to the Group.

Amendments to HKASs 1 and 8	Definition of Material
Amendments to HKFRS 16	COVID-19-Related Rent Concessions Beyond 30 June 2021

# Notes to the Consolidated Financial Statements

Year ended 31 March 2021

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### *Adoption of new/revised HKFRSs (Continued)*

#### ***Amendments to HKASs 1 and 8: Definition of Material***

The amendments clarify the definition of material and align the definition used across HKFRSs.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

#### ***Amendments to HKFRS 16: COVID-19-Related Rent Concessions Beyond 30 June 2021***

The amendments exempt lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications and allow lessees to account for such rent concessions as if they were not lease modifications. It applies to covid-19-related rent concessions that reduce lease payments due on or before 30 June 2022. The amendments do not affect lessors.

These amendments shall be applied for annual periods beginning on or after 1 April 2021 with earlier application permitted. The Group has elected to early adopt the amendments in the current year. In accordance with the transition provisions therein, the amendments have been applied retrospectively by the Group recognising the cumulative effect of initially applying the amendments as an adjustment to the opening balance of accumulated losses and therefore the comparative information has not been restated.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

### **Basis of measurement**

The measurement basis used in the preparation of these consolidated financial statements is historical cost, except for financial asset at FVPL, which are measured at fair value as explained in the accounting policies set out below.

### **Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and all of its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year as that of the Company using consistent accounting policies.

All intra-group balance, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full. The results of subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Non-controlling interests are presented, separately from equity holders of the Company, in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position. The non-controlling interests in the acquiree, that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in event of liquidation, are measured initially either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. This choice of measurement basis is made on an acquisition-by-acquisition basis. Other types of non-controlling interests are initially measured at fair value, unless another measurement basis is required by HKFRSs.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Allocation of total comprehensive income

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the Company and to the non-controlling interests. Total comprehensive income is attributed to the equity holders of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

### Changes in ownership interests

Changes in the Group's ownership interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the equity holders of the Company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest determined at the date when control is lost and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests at the date when the control is lost. The amounts previously recognised in other comprehensive income in relation to the disposed subsidiary are accounted for on the same basis as would be required if the Group had directly disposed of the related assets or liabilities. Any investment retained in the former subsidiary and any amounts owed by or to the former subsidiary are accounted for as a financial asset, associate, joint venture or others as appropriate from the date when control is lost.

### Subsidiaries

A subsidiary is an entity that is controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control.

In the Company's statement of financial position which is presented in Note 34 to the consolidated financial statements, investment in a subsidiary is stated at cost less impairment loss. The carrying amount of the investment is reduced to its recoverable amount on an individual basis, if it is higher than the recoverable amount. The results of the subsidiary are accounted for by the Company on the basis of dividends received and receivable.

### Associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

# Notes to the Consolidated Financial Statements

Year ended 31 March 2021

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### **Associate** *(Continued)*

The Group's investment in an associate is accounted for under the equity method of accounting, except when the investment or a portion thereof is classified as held for sale. Under the equity method, the investment is initially recorded at cost and adjusted thereafter for the post-acquisition changes in the Group's share of the investee's net assets and any impairment loss relating to the investment. Except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee, the Group discontinues recognising its share of further losses when the Group's share of losses of the investee equals or exceeds the carrying amount of its interest in the investee, which includes any long term interests that, in substance, form part of the Group's net investment in the investee.

Goodwill arising on an acquisition of an associate is measured as the excess of the cost of investment over the Group's share of the net fair value of the identifiable assets and liabilities of the acquired associate. Such goodwill is included in interest in an associate. On the other hand, any excess of the Group's share of its net fair value of identifiable assets and liabilities over the cost of investment is recognised immediately in profit or loss as an income.

In the Company's statement of financial position which is presented within these notes, investment in an associate is accounted for using the equity method.

### **Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation is provided to write off the cost less accumulated impairment losses of property, plant and equipment over their estimated useful lives as set out below from the date on which they are available for use and after taking into account their estimated residual values, using the straight-line method. Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis and depreciated separately:

Office equipment, including POS terminals	3 – 5 years
Leasehold improvements	3 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the period in which the item is derecognised.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Intangible assets

#### *Computer software*

Computer software represents costs incurred for the development of the technology systems. Computer software is stated at cost less accumulated amortisation and impairment losses. Amortisation is provided on the straight-line basis over the estimated useful lives of 5 years.

#### *Payment network membership*

The initial cost of payment network membership is capitalised. Payment network membership with indefinite useful lives is carried at cost less accumulated impairment losses as the Directors consider that there is no foreseeable limit on the period of time over which the payment network membership can be used to generate economic benefits.

### Financial instruments

#### *Financial assets*

##### *Recognition and derecognition*

Financial assets are recognised when and only when the Group becomes a party to the contractual provisions of the instruments and on a trade date basis.

A financial asset is derecognised when and only when (i) the Group's contractual rights to future cash flows from the financial asset expire or (ii) the Group transfers the financial asset and either (a) it transfers substantially all the risks and rewards of ownership of the financial asset, or (b) it neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but it does not retain control of the financial asset.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises the financial asset to the extent of its continuing involvement and an associated liability for amounts it may have to pay.

Financial assets (except for trade receivables without a significant financing component) are initially recognised at their fair value plus, in the case of financial assets not carried at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial assets. Such trade receivables are initially measured at their transaction price.

# Notes to the Consolidated Financial Statements

Year ended 31 March 2021

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Financial instruments *(Continued)*

#### *Financial assets (Continued)*

##### *Recognition and derecognition (Continued)*

On initial recognition, a financial asset is classified as (i) measured at amortised cost; (ii) debt investment measured at fair value through other comprehensive income (“**Mandatory FVOCI**”); (iii) equity investment measured at fair value through other comprehensive income (“**Designated FVOCI**”); or (iv) measured at FVPL.

The classification of financial assets at initial recognition depends on the Group’s business model for managing the financial assets and the financial asset’s contractual cash flow characteristics. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing them, in which case all affected financial assets are reclassified on the first day of the first annual reporting period following the change in the business model.

Derivatives embedded in a hybrid contract in which a host is an asset within the scope of HKFRS 9 are not separated from the host. Instead, the entire hybrid contract is assessed for classification.

#### 1) Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- (i) it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (ii) its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses arising from impairment, derecognition or through the amortisation process are recognised in profit or loss.

The Group’s financial assets at amortised cost include trade receivables, other receivables, due from the ultimate holding company, restricted funds and bank balances and cash.

#### 2) Financial assets at FVPL

These investments include financial assets that are not measured at amortised cost or FVOCI, including financial assets held for trading, financial assets designated upon initial recognition as at FVPL, financial assets resulting from a contingent consideration arrangement in a business combination to which HKFRS 3 applies and financial assets that are otherwise required to be measured at FVPL. They are carried at fair value, with any resultant gain and loss recognised in profit or loss, which does not include any dividend or interest earned on the financial assets.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Financial instruments *(Continued)*

#### **Financial assets** *(Continued)*

##### *Recognition and derecognition (Continued)*

#### 2) Financial assets at FVPL *(Continued)*

A financial asset is classified as held for trading if it is:

- (i) acquired principally for the purpose of selling it in the near term;
- (ii) part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking on initial recognition; or
- (iii) a derivative that is not a financial guarantee contract or not a designated and effective hedging instrument.

The Group's financial asset mandatorily measured at FVPL includes unlisted equity investment in Hong Kong.

#### **Financial liabilities**

##### *Recognition and derecognition*

Financial liabilities are recognised when and only when the Group becomes a party to the contractual provisions of the instruments.

A financial liability is derecognised when and only when the liability is extinguished, that is, when the obligation specified in the relevant contract is discharged, cancelled or expires.

##### *Classification and measurement*

Financial liabilities are initially recognised at their fair value plus, in the case of financial liabilities not carried at FVPL, transaction costs that are directly attributable to the issue of the financial liabilities.

The Group's financial liabilities include trade payables, other payables, lease liabilities, other long term liabilities and liability component of convertible bonds. All financial liabilities are recognised initially at their fair value and subsequently measured at amortised cost, using effective interest method, unless the effect of discounting would be insignificant, in which case they are stated at cost.

#### *Impairment of financial assets and other items*

The Group recognises loss allowances for expected credit losses (“ECL”) on financial assets that are measured at amortised cost, Mandatory FVOCI, lease receivables, contract assets, loan commitments and financial guarantee contracts issued to which the impairment requirements apply in accordance with HKFRS 9. Except for the specific treatments as detailed below, at each reporting date, the Group measures a loss allowance for a financial asset at an amount equal to the lifetime ECL if the credit risk on that financial asset has increased significantly since initial recognition. If the credit risk on a financial asset has not increased significantly since initial recognition, the Group measures the loss allowance for that financial asset at an amount equal to 12-month ECL.

#### *Measurement of ECL*

ECL is a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

For financial assets, a credit loss is the present value of the difference between the contractual cash flows that are due to an entity under the contract and the cash flows that the entity expects to receive.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument while 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Where ECL is measured on a collective basis, the financial instruments are grouped based on the following one or more shared credit risk characteristics:

- (i) past due information
- (ii) nature of instrument
- (iii) nature of collateral
- (iv) industry of debtors
- (v) geographical location of debtors

Loss allowance is remeasured at each reporting date to reflect changes in the financial instrument’s credit risk and loss since initial recognition. The resulting changes in the loss allowance are recognised as an impairment gain or loss in profit or loss with a corresponding adjustment to the carrying amount of the financial instrument, except in the case of Mandatory FVOCI, the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

#### ***Impairment of financial assets and other items (Continued)***

##### *Definition of default*

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that the Group may not receive the outstanding contractual amounts in full if the financial instrument that meets any of the following criteria.

- (i) information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group); or
- (ii) there is a breach of financial covenants by the counterparty.

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

##### *Assessment of significant increase in credit risk*

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. In particular, the following information is taken into account in the assessment:

- the debtor's failure to make payments of principal or interest on the due dates;
- an actual or expected significant deterioration in the financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- actual or expected changes in the technological, market, economic or legal environment that have or may have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial instrument has increased significantly since initial recognition when contractual payments are more than 30 days past due.

Notwithstanding the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

### Financial instruments *(Continued)*

#### *Impairment of financial assets and other items (Continued)*

##### *Low credit risk*

A financial instrument is determined to have low credit risk if:

- (i) it has a low risk of default;
- (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

All financial assets are determined to have low credit risk.

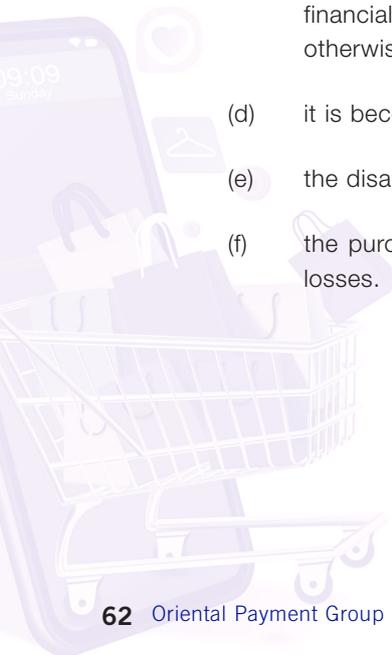

##### *Simplified approach of ECL*

For trade receivables without a significant financing components, the Group applies a simplified approach in calculating ECL. The Group recognises a loss allowance based on lifetime ECL at each reporting date and has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

##### *Credit-impaired financial asset*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower.
- (b) a breach of contract, such as a default or past due event.
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider.
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.
- (e) the disappearance of an active market for that financial asset because of financial difficulties.
- (f) the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Financial instruments *(Continued)*

#### *Impairment of financial assets and other items (Continued)*

##### *Write-off*

The Group writes off a financial asset when the Group has no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or a portion thereof. The Group has a policy of writing off the gross carrying amount based on historical experience of recoveries of similar assets. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities under the Group's procedures for recovery of amounts due, taking into account legal advice if appropriate. Any subsequent recovery is recognised in profit or loss.

#### **Convertible bond**

Convertible bonds that can be converted to equity share capital at the option of the holders, where the number of shares that would be issued on conversion and the value of the consideration that would be received at that time do not vary, are accounted for as compound financial instruments which contain both a liability component and an equity component.

At initial recognition, the liability component of the convertible bonds is measured as the present value of the future interest and principal payments, discounted at the market rate of interest applicable at the time of initial recognition to similar liabilities that do not have a conversion option. Any excess of proceeds over the amount initially recognised as the liability component is recognised as the equity component. Transactions costs that related to the issue of a compound financial instrument are allocated to the liability and equity components in proportion to the allocation of the proceeds.

The liability component is subsequently carried at amortised cost. The interest expenses recognised in profit or loss on the liability component is calculated using the effective interest method. The equity component is recognised in a separate reserve until either the convertible bonds are converted or redeemed.

If the convertible bonds are converted, the amount previously recognised in equity, together with the carrying amount of the liability component at the time of conversion, are transferred to share capital and share premium as consideration for the shares issued.

If the convertible bonds are redeemed, any difference between the redemption consideration allocated to the liability component and the net carrying amount of the liability component is recognised in profit or loss while the amount previously recognised in equity and the redemption consideration allocated to the equity component are recognised directly to accumulated losses.

### Share capital

Ordinary shares are classified as equity. Preference shares are classified as liabilities if they are redeemable at a specific date or at the shareholders' option; or if dividend payments are not discretionary. Preference shares that are not redeemable, or are redeemable only at the Group's option; and any dividend payments are discretionary, are classified as equity.

### Cash equivalents

For the purpose of the consolidated statement of cash flows, cash equivalents represent short-term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value.

### Revenue recognition

#### *Revenue from contracts with customers within HKFRS 15*

##### *Nature of goods or services*

The nature of the goods or services provided by the Group is as follows:

Business A: Merchant acquiring service in Thailand

Business B: Marketing service in Thailand

##### *Identification of performance obligations*

At contract inception, the Group assesses the goods or services promised in a contract with a customer and identifies as a performance obligation each promise to transfer to the customer either:

- (a) a good or service (or a bundle of goods or services) that is distinct; or
- (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A good or service that is promised to a customer is distinct if both of the following criteria are met:

- (a) the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer (i.e. the good or service is capable of being distinct); and
- (b) the Group's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract (i.e. the promise to transfer the good or service is distinct within the context of the contract).

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Revenue recognition *(Continued)*

#### **Revenue from contracts with customers within HKFRS 15** *(Continued)*

##### *Timing of revenue recognition*

Revenue is recognised when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

The Group transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- (a) the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- (b) the Group's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced; or
- (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is not satisfied over time, the Group satisfies the performance obligation at a point in time when the customer obtains control of the promised asset. In determining when the transfer of control occurs, the Group considers the concept of control and such indicators as legal title, physical possession, right to payment, significant risks and rewards of ownership of the asset, and customer acceptance.

Merchant acquiring transaction fee income ("**MDR income**") and marketing and distribution service income are recognised at a point in time at which the service is provided, which generally coincides with the time when the transactions are approved and executed.

##### *Variable consideration*

If the consideration promised in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the promised goods or services to a customer. The variable consideration is estimated by using either the expected-value or the most-likely-amount method whichever is better to predict the entitled amount. The estimated variable consideration is then included in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised of the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

### Revenue recognition *(Continued)*

#### *Income from financial assets*

Foreign exchange rate discount income is recognised when the foreign currency denominated funds are received from the merchant acquiring business partner who offered a favourable exchange rate in settling its outstanding payable to the Group and converted into local currency which is usually on every business day.

Interest income from financial assets is recognised using the effective interest method. For financial assets measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the assets while it is applied to the amortised cost (i.e. the gross carrying amount net of loss allowance) in case of credit-impaired financial assets.

#### Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). Hong Kong Dollars ("**HK\$**") is the Company's functional currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

The results and financial position of all the group entities that have a functional currency different from the presentation currency ("**foreign operations**") are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented and, where applicable, goodwill and fair value adjustments on the carrying amounts of assets and liabilities arising on an acquisition of a foreign operation which are to be treated as assets and liabilities of that foreign operation, are translated at the closing rate at the end of the reporting period;
- Income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates;
- All resulting exchange differences arising from the above translation and exchange differences arising from a monetary item that forms part of the Group's net investment in a foreign operation are recognised as a separate component of equity;
- On the disposal of a foreign operation, which includes a disposal of the Group's entire interest in a foreign operation, a disposal involving the loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest is no longer equity-accounted for, the cumulative amount of the exchange differences relating to the foreign operation that is recognised in other comprehensive income and accumulated in the separate component of equity is reclassified from equity to profit or loss when the gain or loss on disposal is recognised;

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Foreign currency translation *(Continued)*

- On the partial disposal of the Group's interest in a subsidiary that includes a foreign operation which does not result in the Group losing control over the subsidiary, the proportionate share of the cumulative amount of the exchange differences recognised in the separate component of equity is re-attributed to the non-controlling interests in that foreign operation and are not reclassified to profit or loss; and
- On all other partial disposals, which includes partial disposal of associates or joint ventures that do not result in the Group losing significant influence or joint control, the proportionate share of the cumulative amount of exchange differences recognised in the separate component of equity is reclassified to profit or loss.

### Impairment of non-financial assets

At the end of each reporting period, the Group reviews internal and external sources of information to assess whether there is any indication that its property, plant and equipment, right-of-use assets, intangible assets or interest in an associate may be impaired or impairment loss previously recognised no longer exists or may be reduced. If any such indication exists, the recoverable amount of the asset is estimated, based on the higher of its fair value less costs of disposal and value in use. In addition, the Group tests its intangible assets that have indefinite useful lives and intangible assets that are not yet available for use for impairment by estimating their recoverable amount on an annual basis and whenever there is an indication that those assets may be impaired. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the smallest group of assets that generates cash flows independently (i.e. cash-generating unit).

If the recoverable amount of an asset or a cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognised as an expense in profit or loss immediately.

A reversal of impairment losses is limited to the carrying amount of the asset or cash-generating unit that would have been determined had no impairment loss been recognised in prior periods. Reversal of impairment losses is recognised as an income in profit or loss immediately.

### Borrowing costs

Borrowing costs incurred, net of any investment income on the temporary investment of the specific borrowings, that are directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

# Notes to the Consolidated Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the years necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

### Leases

The Group assesses whether a contract is, or contains, a lease at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### *As lessee*

The Group has elected not to separate non-lease components from lease components, and accounts for each lease component and any associated non-lease components as a single lease component.

The Group accounts for each lease component within a lease contract as a lease separately. The Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component.

Amounts payable by the Group that do not give rise to a separate component are considered to be part of the total consideration that is allocated to the separately identified components of the contract.

The Group recognises a right-of-use asset and a lease liability at the commencement date of the lease.

The right-of-use asset is initially measured at cost, which comprises

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the Group; and
- (d) an estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of the lease liability. Depreciation is provided on a straight-line basis over the shorter of the lease term and the estimated useful lives of the right-of-use asset (unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option – in which case depreciation is provided over the estimated useful life of the underlying asset) as follows:

Office premises	Over the term of lease
Machinery	Over the term of lease

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### *Leases (Continued)*

#### *As lessee (Continued)*

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date of the contract.

The lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate;
- (c) amounts expected to be payable under residual value guarantees;
- (d) exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

The lease payments are discounted using the interest rate implicit in the lease, or where it is not readily determinable, the incremental borrowing rate of the lessee.

Subsequently, the lease liability is measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

The lease liability is remeasured using a revised discount rate when there are changes to the lease payments arising from a change in the lease term or the reassessment of whether the Group will be reasonably certain to exercise a purchase option.

The lease liability is remeasured by using the original discount rate when there is a change in the residual value guarantee, the in-substance fixed lease payments or the future lease payments resulting from a change in an index or a rate (other than floating interest rate). In case of a change in future lease payments resulting from a change in floating interest rates, the Group remeasures the lease liability using a revised discount rate.

The Group recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. If the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the remeasurement in profit or loss.

A lease modification is accounted for as a separate lease if

- (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- (b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Leases *(Continued)*

#### *As lessee (Continued)*

When a lease modification is not accounted for as a separate lease, at the effective date of the lease modification,

- (a) the Group allocates the consideration in the modified contract on the basis of relative stand-alone price as described above.
- (b) the Group determines the lease term of the modified contract.
- (c) the Group remeasures the lease liability by discounting the revised lease payments using a revised discount rate over the revised lease term.
- (d) for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease and recognising any gain or loss relating to the partial or full termination of the lease in profit or loss.
- (e) for all other lease modifications, the Group accounts for the remeasurement of the lease liability by making a corresponding adjustment to the right-of-use asset.

The Group has applied the practical expedient provided in Amendments to HKFRS 16: *Covid-19-Related Rent Concessions Beyond 30 June 2021* and does not assess whether eligible rent concessions occurring as a direct consequence of the covid-19 pandemic are lease modification. The Group accounts for any change in lease payments resulting from the rent concession the same way it would account for the change applying HKFRS 16 if the change were not a lease modification.

The practical expedient applies only to rent concessions occurring as a direct consequence of the covid-19 pandemic and only if all of the following conditions are met:

- (a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (b) any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- (c) there is no substantive change to other terms and conditions of the lease.

The Group has applied the practical expedient consistently to all eligible rent concessions with similar characteristics and in similar circumstances.

### Employee benefits

#### *Short term employee benefits*

Salaries, annual bonuses, paid annual leave and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### Employee benefits *(Continued)*

#### ***Defined contribution plans***

The obligations for contributions to defined contribution retirement scheme in Hong Kong are recognised as expense in profit or loss as incurred. The assets of the scheme are held separately from those of the Group's entities established in Hong Kong in an independently administered fund.

In accordance with the rules and regulations in Thailand, the employees of Oriental City Group (Thailand) Co., Ltd. ("**OCG Thailand**") are required to participate in defined contribution retirement plans organised by local governments. Contributions to those plans are expensed as incurred and other than these monthly contributions, the Group has no further obligation for the payment of retirement benefits to its employees.

#### ***Long service payments***

The Group's net obligation in respect of long service payments under the Employment Ordinance is the amounts of future benefit that employees have earned in return for their services in the current and prior periods. The obligation is calculated using the projected unit credit method and discounted to its present value and after deducting the fair value of any related assets, including those retirement scheme benefits.

### **Taxation**

The charge for current income tax is based on the results for the year as adjusted for items that are non-assessable or disallowed. It is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, any deferred tax arising from initial recognition of goodwill; or other asset or liability in a transaction other than a business combination that at the time of the transaction affects neither the accounting profit nor taxable profit or loss is not recognised.

The deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is recovered or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, tax losses and credits can be utilised.

Deferred tax is provided on temporary differences arising on investment in subsidiaries and an associate, except where the timing of the reversal of the temporary differences is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

### Related parties

A related party is a person or entity that is related to the Group.

- (a) A person or a close member of that person's family is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of the holding company of the Group.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) the entity and the Group are members of the same group (which means that each holding company, subsidiary and fellow subsidiary is related to the others).
  - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) both entities are joint ventures of the same third party.
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
  - (vi) the entity is controlled or jointly controlled by a person identified in (a).
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a holding company of the entity).
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the holding company of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (a) that person's children and spouse or domestic partner;
- (b) children of that person's spouse or domestic partner; and
- (c) dependants of that person or that person's spouse or domestic partner.

In the definition of a related party, an associate includes subsidiaries of the associate and a joint venture includes subsidiaries of the joint venture.

### Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Operating segments that meet the quantitative thresholds are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Other operating segments may be aggregated if they share a majority of these criteria.

### Critical accounting estimates and judgements

Estimates and assumptions concerning the future and judgements are made by the management in the preparation of the consolidated financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. Where appropriate, revisions to accounting estimates are recognised in the period of revision and future periods, in case the revision also affects future periods.

#### *(a) Critical judgements made in applying accounting policies*

##### *(i) Subsidiary – OCG Thailand*

According to the relevant laws and regulations in Thailand, in particular the Foreign Business Act (the "FBA"), OCG Thailand, being a company engaged in third party merchant acquiring business in Thailand, must be owned as to more than 50% by Thai citizens.

With reference to the capital and voting rights structure of ordinary shares and preference shares (together the "Preference Shares Structure") of OCG Thailand as described in Note 12 to the consolidated financial statements, all the OCG Thailand's issued preference share capital is owned by a Thai citizen. However, the Company is able to exercise majority voting power in any shareholders' meeting of OCG Thailand.

The Company's legal advisers have confirmed that the Preference Shares Structure is still in compliance with all existing laws and regulations in Thailand, in particular the FBA. In light of no previous supreme court judgement ruling the invalidity of capital structure similar to that of OCG Thailand as opposed to the FBA and related interpretations, after due and careful consideration of all relevant factors together with the legal opinion obtained, the management assesses and concludes that the Preference Shares Structure is valid, legal and enforceable in Thailand.

Based upon the management's judgement on the Preference Shares Structure, the Company accounts for OCG Thailand as a subsidiary on the ground that it is able to control OCG Thailand by exercising its majority voting power in any shareholders' meetings of OCG Thailand.

### Critical accounting estimates and judgements *(Continued)*

#### **(b) Key sources of estimation uncertainty**

##### *(i) Impairment of investment in an associate*

The Group assesses annually if investment in an associate has suffered any impairment in accordance with HKAS 36. Details of the approach are stated in the respective accounting policies. The assessment requires an estimation of future cash flows, including expected dividends, from the assets and the selection of appropriate discount rates. Future changes in financial performance and position of the entity would affect the estimation of impairment loss and cause the adjustments of its carrying amount.

##### *(ii) Useful lives of property, plant and equipment and intangible assets*

The management determines the estimated useful lives of the Group's property, plant and equipment and intangible assets based on the historical experience of the actual useful lives of the relevant assets of similar nature and functions. The estimated useful lives could be different as a result of technical innovations which could affect the related depreciation and amortisation charges included in profit or loss.

##### *(iii) Impairment of property, plant and equipment, right-of-use assets and intangible assets*

The management determines whether the Group's property, plant and equipment, right-of-use assets and intangible assets are impaired when an indication of impairment exists or when annual impairment testing is required. This requires an estimation of the recoverable amount of the property, plant and equipment, right-of-use assets and intangible assets, which is equal to the higher of fair value less costs of disposal and value in use. Estimating the value in use requires the management to make an estimate of the expected future cash flows from the property, plant and equipment, right-of-use assets and intangible assets and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Any impairment will be charged to profit or loss.

##### *(iv) Discount rates for calculating lease liabilities – as lessee*

The Group uses the lessee's incremental borrowing rates to discount future lease payments since interest rates implicit in the leases are not readily determinable. In determining the discounts rates for its leases, the Group refers to a rate that is readily observable as the starting point and then applies judgement and adjusts such observable rate to determine the incremental borrowing rate.

##### *(v) Loss allowance for ECL of trade and other receivables*

The Group's management estimates the loss allowance for trade and other receivables by using various inputs and assumptions including risk of a default and expected loss rate. The estimation involves high degree of uncertainty which is based on the Group's historical information, existing market conditions as well as forward-looking estimates at the end of each reporting period. Where the expectation is different from the original estimate, such difference will impact the carrying amount of trade and other receivables. Details of the key assumption and inputs used in estimating ECL are set out in Note 30 to the consolidated financial statements.

**2. PRINCIPAL ACCOUNTING POLICIES** *(Continued)***Critical accounting estimates and judgements** *(Continued)***(b) Key sources of estimation uncertainty** *(Continued)***(vi) Income tax**

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business, where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will result in additional income tax and deferred tax provision in the period in which such determination is made.

**Future changes in HKFRSs**

At the date of authorisation of the consolidated financial statements, the HKICPA has issued a number of new/revised HKFRSs that are not yet effective for the current year, which the Group has not early adopted.

Amendments to HKAS 39, HKFRSs 4, 7, 9 and 16	Interest Rate Benchmark Reform – Phase 2 <sup>1</sup>
Amendments to HKAS 16	Proceeds before Intended Use <sup>2</sup>
Amendments to HKAS 37	Cost of Fulfilling a Contract <sup>2</sup>
Amendments to HKFRS 3	Reference to the Conceptual Framework <sup>2</sup>
Annual Improvements to HKFRSs	2018–2020 Cycle <sup>2</sup>
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current <sup>3</sup>
Amendments to HKAS 1	Disclosure of Accounting Policies <sup>3</sup>
Amendments to HKAS 8	Definition of Accounting Estimates <sup>3</sup>
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction <sup>3</sup>
HKFRS 17	Insurance Contracts <sup>3</sup>
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>4</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2021

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2022

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2023

<sup>4</sup> The effective date to be determined

The directors are in the process of assessing the possible impact on the future adoption of the new/revised HKFRSs, but are not yet in a position to reasonably estimate their impact on the consolidated financial statements.

### 3. SEGMENT INFORMATION

The Group's operating activities are attributable to a single operating segment focusing on merchant acquiring business in Thailand during the years ended 31 March 2021 and 2020. This operating segment has been identified on the basis of internal management reports prepared in accordance with accounting policies conform to HKFRSs that are regularly reviewed by the executive directors of the Company, the chief operating decision maker. They review the results of the Group as a whole in order to assess financial performance and allocation of resources. Accordingly, the operation of the Group constitutes only one single operating segment and no further analysis of this single segment is presented.

#### Geographical information

The Group's operation is mainly located in Thailand.

The following table sets out information about the geographical location of (i) the Group's revenue from external customers and (ii) the Group's property, plant and equipment, right-of-use assets and intangible assets ("**Specified Non-current Assets**"). The geographical location of revenue is based on the location of the merchants. The geographical location of Specified Non-current Assets is based on the physical location of the assets (in the case of intangible assets, the location of operations).

#### (a) Revenue from external customers

#### (a) Hong Kong Profits Tax

Hong Kong Profits Tax at the rate of 16.5% has not been provided as the Group incurred a loss for taxation purpose for the year ended 31 March 2021.

Hong Kong Profits Tax at the rate of 16.5% had not been provided as the Group's estimated assessable profits arising in or derived from Hong Kong were wholly absorbed by unrelieved tax losses brought forward from previous year for the year ended 31 March 2020.

**9. TAXATION (Continued)****(b) Income taxes outside Hong Kong**

The group entities established in the Cayman Islands and the BVI are exempted from income tax of the respective jurisdiction.

Thailand Enterprise Income Tax at the rate of 20% has not been provided as the Group's operation in Thailand incurred a loss for taxation purpose for the year ended 31 March 2021. Thailand Enterprise Income Tax has been provided at the rate of 20% on the estimated assessable profits of the operation of OCG Thailand arising from Thailand for the year ended 31 March 2020.

Cambodia Corporate Income Tax at the rate of 20% has not been provided as OCGC Payment Co., Ltd. ("**OCGC Payment**") has not yet commenced its business.

Dividends payable by a foreign invested enterprise in Thailand to its foreign investors are subject to a 10% (2020: 10%) withholding tax, unless any foreign investor's jurisdiction of incorporation has a tax treaty with Thailand that provides for a different withholding arrangement.

Dividends payable by an enterprise in Cambodia to its foreign investors are subject to a 14% (2020: 14%) withholding tax.

**Reconciliation of income tax (credit) expenses**

	2021 HK\$'000	2020 HK\$'000

Reversal of withholding tax on undistributed earnings of a foreign subsidiary	(445)	–
Others	(7)	1
Income tax (credit) expenses for the year	(462)	1,157

The applicable tax rate is the weighted average of rates prevailing in the territories in which the Group's entities operate against profit or loss before tax. The change in applicable tax rate is caused by changes in the taxable results of the Group's subsidiaries in the respective countries which the Group operates.

## Notes to the Consolidated Financial Statements

Year ended 31 March 2021

### 10. LOSS PER SHARE

Basic loss per share is calculated on the loss for the year ended 31 March 2021 attributable to the equity holders of the Company of approximately HK\$30,655,000 (2020: approximately HK\$5,575,000) and on the weighted average number of 1,000,000,000 ordinary shares (2020: 1,000,000,000 ordinary shares) in issue during the year ended 31 March 2021.

Diluted loss per share is the same as basic loss per share as the effect of potential ordinary shares had anti-dilutive effects during the year ended 31 March 2021 (2020: there were no dilutive potential ordinary shares in existence).

### 11. DIVIDENDS

The Directors of the Company did not recommend a payment of a dividend for the year ended 31 March 2021 (2020: Nil).

### 12. SUBSIDIARIES

The particulars of the Company's subsidiaries, which are private limited liability companies, of which the Company has direct/indirect interests are as follows:

Name of subsidiary	Place and date of incorporation/ establishment	Particulars of issued and paid up capital/ registered capital	Effective ownership interests held by the Company		Principal activities/ place of operation

OCG Thailand	Thailand, 27 September 2004	Ordinary, Thai Baht ("Baht") 25,000,000	100%	100%	Merchant acquiring business/Thailand
		Preference, Baht 25,500,000 <Note>	0%	0%	

## 12. SUBSIDIARIES *(Continued)*

The above information of ownership interests is presented as if the current group structure had always been in existence throughout the years ended 31 March 2021 and 2020 or since the respective date of establishment or incorporation where applicable.

All entities comprising the Group have adopted 31 March as their financial period end date.

Except for the preference share capital as issued by OCG Thailand, none of the subsidiaries had any debt securities outstanding at the end of the reporting period, or at any time during the reporting period.

### <Note>

At the end of the reporting period, OCG Thailand's share capital is comprised of 2,500,000 ordinary shares with paid up amount of Baht 25,000,000 (equivalent to approximately HK\$5,857,000) (2020: Baht 25,000,000 (equivalent to approximately HK\$5,857,000)) and 2,550,000 preference shares with paid up amount of Baht 25,500,000 (equivalent to approximately HK\$6,327,000) (2020: Baht 25,500,000 (equivalent to approximately HK\$6,050,000)).

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share on any resolution of OCG Thailand.

The holder of preference shares, who is a Thai citizen, has the following rights:

- one vote for every ten shares held on any resolution of OCG Thailand;
- the right to receive cumulative dividend declared by OCG Thailand at the rate of 9.5% per annum on paid up value of the shares issued, prior to the ordinary shares; and
- the right to receive the distribution of the share capital, in the case of the winding up of OCG Thailand, prior to the ordinary shares, but limited to the paid up amount of the preference shares.

The preference shares as issued by OCG Thailand are classified as liabilities instead of equity in the consolidated financial statements in accordance with applicable accounting standards because, although they are not redeemable, the holders of which are entitled to receive 9.5% (per annum) cumulative dividend on the paid up value of the preference shares issued, which is treated as cost of financing, and are only entitled to OCG Thailand's residual assets limited to the nominal value of their paid-up capital.

Therefore, the results and financial position of OCG Thailand are included in the Group's consolidated financial statements, after accounting for the paid up value of the preference shares issued and its related cumulative dividend, to the extent of 100% ordinary equity interests attributable to the equity holders of the Company according to the proportion of ordinary shares indirectly held by the Company through OCG Thailand (BVI) and OCG Asia Pacific.

### 16. LEASES *(Continued)*

#### COVID-19-related rent concessions

The amount recognised in profit or loss during the year ended 31 March 2021 to reflect changes in lease payments that arise from rent concessions to which the Group has applied the practical expedient for COVID-19-related rent concessions provided in Amendments to HKFRS 16 is approximately HK\$136,000.

#### Restrictions or covenants

Most of the leases impose a restriction that, unless the approval is obtained from the lessor, the right-of-use asset can only be used by the Group and the Group is prohibited from selling or pledging the underlying assets. The Group is also required to keep those properties in a good state of repair and return the properties in their original condition at the end of the lease.

The interest expenses and total cash flow on lease liabilities are set out in Notes 6 and 28 to the consolidated financial statements respectively.

At the end of the reporting period, the remaining amortisation period of the computer software is 3.5 years (2020: 4.5 years).
- (b) The useful life of the payment network membership is determined to be indefinite because the Group is able to renew the payment network membership without incurring significant cost that there is no foreseeable limit to the period over which the payment network membership is expected to generate net cash inflows for the Group.

### 17. INTANGIBLE ASSETS (Continued)

The Group carried out annual impairment test for intangible assets where an indicator of impairment appears by comparing their recoverable amounts to their carrying amounts at the end of the reporting period.

The Group, through OCG Thailand, is engaged in the provision of merchant acquiring services (the “**Merchant Acquiring CGU**”). In view of the deteriorating economy and the outbreak of COVID-19 pandemic during the year ended 31 March 2021, the management considered that there is impairment indicator under the Merchant Acquiring CGU.

The management assessed that the acquiring and clearing system developed in previous year for the payment processing services via major payment networks in Thailand (the “**System**”), which was not used by the Group due to the change in the business operation and market development strategy of the Group, may not be able to generate future economic benefits, in particular, after the outbreak of COVID-19 pandemic. Accordingly, the recoverable amount of the System was minimal. Impairment loss on the System of HK\$5,600,000 was recognised during the year ended 31 March 2021.

At 31 March 2021, the Group further assessed the recoverable amount of the Merchant Acquiring CGU based on the value-in-use calculation using pre-tax cash flow projections covering a 3-year period which is provided by the management. The estimated revenue and costs for each individual intangible asset were based on management expectation. As the recoverable amount of the Merchant Acquiring CGU was approximately HK\$15,630,000, no further impairment loss should be recognised for the remaining non-current assets allocated to the Merchant Acquiring CGU at 31 March 2021.

Key assumptions and inputs used for value-in-use calculation are as follows:

Average gross profit margin	39%
Average growth rate	168%
Discount rate	11%

At 31 March 2020, the management was of the view that no impairment loss should be recognised for the intangible assets already in use as their recoverable amounts exceeded their carrying amounts.

		32,261	15,741
<b>Due from the ultimate holding company</b>	18(c)	2,375	2,375

Information about the Group's exposure to credit risks and loss allowance for trade and other receivables is included in Note 30 to the consolidated financial statements.

#### (a) Trade receivables

Included in trade and other receivables are the following amounts denominated in a currency other than the respective functional currency of the Group's entities:

	2021 HK\$'000	2020 HK\$'000
US\$	83	5,593

#### (b) Other debtors

Included in other debtors are (i) the advance to the Investee of HK\$4,700,000 (2020: approximately HK\$4,886,000) which is unsecured, interest-bearing at 8% per annum, repayable on 31 December 2022 and subject to a "repayable on demand" clause; (ii) loans to independent third parties of approximately HK\$13,833,000 (2020: Nil) which are unsecured, interest-bearing ranged at 13% to 14% per annum and repayable within one year; (iii) interest receivables of approximately HK\$859,000 (2020: Nil) which are unsecured, interest-free and repayable within one year; and (iv) the remaining items of other debtors are unsecured, interest-free and have no fixed repayment term.

At the date of authorisation for issue of the consolidated financial statements, loans to independent third parties and interest receivables of approximately HK\$10,833,000 and approximately HK\$600,000 at 31 March 2021 have been settled respectively.

#### (c) Due from the ultimate holding company

The amount due is unsecured, interest-free and repayable on demand.

### 19. RESTRICTED FUNDS

The amounts represent bank balances in Thailand maintained solely for the purpose of settlement of outstanding trade payables for the merchant acquiring business pursuant to the agreements signed with a merchant acquiring business partner and the balances are restricted for use by the Group for any other purposes. The restricted bank balances are denominated in Baht.

## Notes to the Consolidated Financial Statements

Year ended 31 March 2021

### 23. DEFERRED TAXATION (Continued)

Recognised deferred tax (assets) liabilities at the end of each reporting period represent the following:

	2021 HK\$'000	2020 HK\$'000
<b>Assets</b>		
Tax losses	(282)	(188)
<b>Liabilities</b>		
Withholding tax on undistributed earnings of a foreign subsidiary	768	1,213

At the end of the reporting period, deferred tax liabilities of approximately HK\$768,000 (2020: approximately HK\$1,213,000) has been recognised for the future withholding tax implications of the portion of undistributed earnings of OCG Thailand that may be distributed in the foreseeable future. Started from 1 April 2016, certain retained earnings of OCG Thailand are kept for financing the continuing operations with reference to the working capital level. After considering the remaining retained earnings available for distribution in the foreseeable future, reversal of deferred taxation of approximately HK\$445,000 (2020: Nil) has been made for the year ended 31 March 2021.

For those retained earnings required for financing the continued operation, such retained earnings would be subject to additional taxation if they are distributed. At the end of the reporting period, the estimated withholding tax effect on the distribution of further retained earnings of OCG Thailand was approximately of HK\$512,000 (2020: approximately HK\$894,000).

At the end of the reporting period, deferred tax assets of approximately HK\$282,000 (2020: approximately HK\$188,000) were recognised in respect of the entire tax losses carried forward of approximately HK\$1,266,000 (2020: approximately HK\$696,000). The tax losses do not expire under current tax legislation.

#### Unrecognised deferred tax assets

At the end of the reporting period, the Group had unused tax losses of approximately HK\$26,870,000 (2020: approximately HK\$9,473,000) and approximately HK\$8,920,000 (2020: Nil) which do not expire and will expire in year 2027 respectively under current tax legislation. Deferred tax assets have not been recognised in respect of the unused tax losses because it is not probable that future taxable profit will be available against which the Group can utilise the benefits therefrom.

## 24. OTHER LONG TERM LIABILITIES

Other long-term liabilities represent preference shares issued by OCG Thailand and the major terms are set out in Note 12 to the consolidated financial statements.

At the end of the reporting period, the Group had an outstanding amount due to a non-controlling shareholder of OCG Thailand amounted to Baht 25,500,000 (equivalent to approximately HK\$6,327,000) (2020: Baht 25,500,000 (equivalent to approximately HK\$6,050,000)) in respect of the issued and paid up preference share capital of OCG Thailand, which carries cumulative dividend at 9.5% (2020: 9.5%) per annum, with accrued dividend payable of approximately Baht 2,423,000 (equivalent to approximately HK\$601,000) (2020: Nil).

## 25. CONVERTIBLE BONDS

On 26 June 2020 (the “**Bond Issue Date**”), the Company issued convertible bonds (the “**Convertible Bonds**”), with a coupon interest rate of 7% per annum, in an aggregate principal amount of HK\$11,850,000 to not less than six independent placees who, and where applicable, whose ultimate beneficial owners were independent third parties. The Convertible Bonds will mature on the date (the “**Maturity Date**”) falling upon the expiry of two years from the Bond Issue Date or if such date is not a business day, the immediate preceding business day.

The coupon interest is accrued on a day to day basis on the principal amount of the Convertible Bonds outstanding and shall only be payable by the Company semi-annually in arrears on the dates falling six months and one year after the Bond Issue Date and on the anniversary(ies) of such dates for each year thereafter up to and including the Maturity Date. Bondholders will be entitled to receive an additional interest at the rate of 10% per annum from the Bond Issue Date up to and including the Maturity Date chargeable on the principal amount of the Convertible Bonds, which will be payable by the Company on the Maturity Date, if they have not converted any of their Convertible Bonds into new shares of the Company.

The Convertible Bonds can be converted into a maximum number of 79,000,000 ordinary shares of the Company at the initial conversion price of HK\$0.15 per share of the Company.

At initial recognition, the Convertible Bonds were separated into a liability component and an equity component representing the conversion options of the bondholders. The fair values of the liability component and the equity conversion component were determined at the Bonds Issue Date. The fair value of the liability component was calculated using market interest rates ranged from 21.33% to 21.44% per annum for instruments without a conversion option of comparable credit status which is referenced to professional valuation conducted by an independent professionally qualified valuer. The residual amount, representing the value of the equity conversion component, has been included in the convertible bonds reserve.

## Notes to the Consolidated Financial Statements

Year ended 31 March 2021

### 25. CONVERTIBLE BONDS *(Continued)*

The liability component was amortised over the term of the Convertible Bonds with the effective interest method. The effective interest rate of the liability component of the Convertible Bonds on initial recognition is 21.93% per annum and is subsequently carried at amortised cost.

The Convertible Bonds recognised at the end of the reporting period are calculated as follow:

	HK\$'000
<b>Liability component</b>

**27. RESERVES****27(a) Share premium**

Share premium represents the excess of the net proceeds from issuance of the Company's shares over its par value. Under the law of the Cayman Islands and the Company's Articles of Association, it is distributable to the Company's shareholders provided that the Company is able to pay its debts as they fall due in the ordinary course of business.

**27(b) Capital reserve**

The capital reserve represents the aggregate amount of the nominal value of the registered capital of the companies comprising the Group less consideration paid to acquire the relevant interests, after adjusting the registered capital held by those attributable to the non-controlling interests (if any).

In addition, listing expenses that were not directly attributed to the issuance of new shares of the Company for funds raising are recognised in the consolidated statement of profit or loss and other comprehensive income when they were incurred. Starting from 1 April 2017, it was agreed with China Smartpay that 90% and 10% of such listing expenses and other listing expenses were borne by China Smartpay and the Group, respectively. Upon recognition of those expenses shared by China Smartpay, a capital contribution from China Smartpay was recorded in the Group's equity.

**27(c) Exchange reserve**

Exchange reserve of the Group comprises all foreign exchange differences arising from translation of the financial statements of the Group's subsidiaries and an associate. The reserve is dealt with in accordance with the accounting policies as set out in Note 2 to the consolidated financial statements.

### 27. RESERVES (Continued)

#### 27(d) Statutory reserve

In accordance with the relevant laws and regulations in Thailand, OCG Thailand is required to appropriate not less than 5% of its net profit to the statutory reserve upon each dividend distribution, until the statutory reserve reaches 10% of its registered authorised capital. The statutory reserve is not available for dividend distribution.

### 30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise of restricted and unrestricted bank balances and cash, convertible bonds and preference shares issued by OCG Thailand. The main purpose of these financial instruments is to raise and maintain finance for the Group's operations. The Group has various other financial instruments such as trade and other receivables and trade and other payables which arise directly from its business activities.

The main risks arising from the Group's financial instruments are (i) foreign currency risk, (ii) interest rate risk, (iii) credit risk and (iv) liquidity risk. The Group does not have any written risk management policies and guidelines. However, the management identifies and evaluates risks and generally adopts conservative strategies on its risk management and limits the Group's exposure to these risks to a minimum as follows:

#### (i) Foreign currency risk

The Group mainly operates in Hong Kong and Thailand with majority of business transactions being denominated and settled in HK\$ and Baht which are the functional currencies of the relevant group entities.

However, as disclosed in Note 18(a) to the consolidated financial statements, the Group's trade receivables arising from the operation of merchant acquiring business in Thailand are mainly denominated in US\$. The management monitors the related foreign currency risk exposure closely on daily basis and, pursuant to a written foreign currency hedging policy as approved by the management, the Group would only enter into foreign currency forward contracts should the needs arise. At 31 March 2021, the Group had no outstanding foreign currency forward contracts for the exchange of US\$ with Baht (2020: US\$600,000 (equivalent to approximately HK\$4,652,000)).

**30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES** *(Continued)***(i) Foreign currency risk** *(Continued)*

At the end of the reporting period, the following table indicates the approximate change in the Group's loss before tax, mainly as a result of translation of the US\$ denominated financial assets in Baht with a corresponding credit/charge to profit or loss, if exchange rate of US\$ had changed against the functional currencies of the respective group entities by 5% and all other variables were held constant:

	2021 HK\$'000	2020 HK\$'000
US\$	4	280

The sensitivity analysis has been determined assuming that the change in foreign exchange rate had occurred at end of the reporting period and had been applied to each of the Group's exposure to currency risk for financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant. The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the year until the end of the next reporting period.

In addition, as detailed in Notes 19 and 20 to the consolidated financial statements, part of the restricted and unrestricted bank balances and cash are denominated in Baht. The conversion of Baht into foreign currencies, including HK\$, is subject to the rules and regulations of foreign exchange control promulgated by the Thailand government.

**(ii) Interest rate risk**

The Group's exposure to market risk for changes in interest rates is related primarily to its interest-bearing financial assets including restricted and unrestricted bank balance and cash as detailed in Notes 19 and 20 to the consolidated financial statements.

At the end of the reporting period, if interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's loss before tax for both years would have been approximately HK\$169,000 (2020: HK\$232,000) lower/higher.

The Group's sensitivity to interest rates would change in the same direction as the changes in its interest-bearing balances of financial assets as mentioned above.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred throughout the reporting period and had been applied to the exposure to interest rate risk for the average balances of the interest-bearing financial assets in existence during the reporting period. The 50 basis point increase or decrease represents management's assessment of a reasonably possible change in interest rates.

### 30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### (iii) Credit risk

The carrying amount of financial assets recognised on the consolidated statement of financial position, which is net of impairment losses, represents the Group's exposure to credit risk without taking into account the value of any collateral held or other credit enhancements.

Credit risk mainly arises from trade and other receivables, restricted funds and bank balances and cash. The Group limits its exposure to credit risk by rigorously selecting the counterparties with reference to their past credit history and/or market reputation. The Group's exposure to the maximum credit risk is summarised as follows:

	2021 HK\$'000	2020 HK\$'000
Trade receivables	162	5,626
Other receivables	28,801	11,991
Due from the ultimate holding company	2,375	2,375
Restricted funds	75	1,392
Bank balances and cash	29,237	36,915

#### *Trade receivables from third parties*

The Group trades only with recognised, creditworthy third parties. The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Group has a credit policy in place and exposures to credit risks are monitored on an ongoing basis. The Group allows a credit period up to 90 days to its trade debtors.

At the end of the reporting period, there were only two (2020: two) trade debtors accounted for all of the total outstanding trade receivables. As at 31 March 2021, the Group had a concentration of credit risk as 51% (2020: 99%) of the total trade receivables made up by the Group's largest trade receivables.

The management considers the credit risk in respect of the largest customer is minimal because it is an authorised financial institution in the People's Republic of China (the "PRC") with high credit ratings and there is no history of default or late payment. For the another customer, the management of the Group considers the ECL of this balance to be minimal after taking into account the actual credit loss experience during the year and adjusted for the current and forward-looking factors over the recoverability of the receivable. No loss allowance was recognised for the balance for year ended 31 March 2021 (2020: Nil).

There was no change in the estimation techniques or significant assumptions made during the year.

**30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES** *(Continued)***(iii) Credit risk** *(Continued)***Trade receivables from third parties** *(Continued)*

At the end of each reporting period, the ageing analysis of the trade receivables prepared based on transaction date or date of service rendered, is as follows:

	2021 HK\$'000	2020 HK\$'000
Less than 1 month	162	5,626

At the end of each reporting period, the ageing analysis of the trade receivables by due date, prepared based on contractual due date, is as follows:

	2021 HK\$'000	2020 HK\$'000
Current	156	5,626
Past due:		
Less than 1 month	6	–
	162	5,626

**Other receivables and due from the ultimate holding company**

The Group considers that other receivables and due from the ultimate holding company have low credit risk based on the borrowers' strong capacity to meet its contractual cash flow obligations in the near term and low risk of default. No loss allowance is recognised based on the measurement on 12-month ECL.

In estimating the ECL the Group has taken into account the financial position of the counterparties by reference to, among others, their management or audited accounts and available press information, adjusted for forward-looking factors that are specific to the counterparties and general economic conditions of the industry in which the counterparties operate, in estimating the probability of default of these financial assets, as well as the loss upon default. The management of the Group considers the ECL of the other receivables and due from the ultimate holding company to be insignificant after taking into account the financial position and credit quality of the counterparties.

There was no change in the estimation techniques or significant assumptions made during the year.

**Restricted funds and bank balances and cash**

The credit risk on restricted funds and bank balances and cash is limited because the counterparties are financial institutions with high credit-ratings assigned by international credit-rating agencies and state-owned banks with good reputation. No loss allowance is recognised based on the measurement on 12-month ECL.

There was no change in the estimation techniques or significant assumptions made during the year.

None of the Group's financial assets are securitised by collateral or other credit enhancements at the end of the reporting period.

### 30. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### (iv) Liquidity risk

Management of the Group aims at maintaining sufficient level of cash and cash equivalents to finance the Group's operations and expected expansion. The Group's primary cash requirements include payments for operating expenses and additions or upgrades of property, plant and equipment and intangible assets. The Group finances its working capital requirements mainly by the funds generated from operations.

The Group's non-derivative financial liabilities at the end of each reporting period based on contractual undiscounted payments are summarised below:

	Within 1 year or on demand HK\$'000	After 1 year but within 5 years HK\$'000	Upon winding up of OCG Thailand <Remark 1> HK\$'000	Total undiscounted cash flows HK\$'000	Carrying amount at the end of the reporting period HK\$'000

	<b>11,018</b>	<b>41</b>	<b>6,050</b>	<b>17,109</b>	<b>17,109</b>

#### <Remark 1>

In case of the winding up of OCG Thailand, the holder of preference shares has the right to the distribution of the residual assets of OCG Thailand prior to the ordinary shares, but limited to the paid up amount of the preference shares.

#### <Remark 2>

The estimated annual finance cost of other long-term liabilities approximates to Baht 2,423,000 (equivalent to approximately HK\$601,000) (2020: Baht 2,423,000 (equivalent to approximately HK\$588,000)), which is not included in the above summary.

### 31. FAIR VALUE MEASUREMENTS

The following presents the assets and liabilities measured at fair value or required to disclose their fair value in these financial statements on a recurring basis across the three levels of the fair value hierarchy defined in HKFRS 13, *Fair Value Measurement*, with the fair value measurement categorised in its entirety based on the lowest level input that is significant to the entire measurement. The levels of inputs are defined as follows:

- Level 1 (highest level): quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3 (lowest level): unobservable inputs for the asset or liability

#### a) Assets and liabilities measured at fair value

	Level 2	
	2021 HK\$'000	2020 HK\$'000
Financial asset at FVPL		
Unlisted equity investment (Note 14)	300	300

The fair value of the unlisted equity investment is determined with reference to its net asset value.

During the years ended 31 March 2021 and 2020, there were no transfer between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

#### b) Assets and liabilities not measured at fair value

The carrying amounts of financial assets and liabilities not measured at fair value are carried at amounts not materially different from their fair values at 31 March 2021 and 2020.

### 32. CAPITAL MANAGEMENT

The objectives of the Group's capital management are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, to maintain an optimal capital structure to reduce the cost of capital and to support the Group's stability and growth. The management considers the total equity as disclosed in the consolidated statement of financial position as the Group's capital.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or return capital to shareholders. No changes were made in the objectives, policies or processes during the years ended 31 March 2021 and 2020.

### 33. CAPITAL EXPENDITURE COMMITMENTS
